Until about 1,000 years ago, English-speaking people thought of the year in two parts -- the warm half and the cold half. The word "winter," is

5,000 years old, and "summer" is a pretty old word, too. The word "spring" was in general use by the 1400's, and "autumn" is a Latin word that also entered

English around 1400. "Fall" came into use as a complement to "spring" in the 17th century -- just as North America was being settled by the British. The

English-speaking people in England mostly stuck with "autumn" while their distant cousins

preferred "fall." And that's why, to this day, this is the only season we have two words for!

Try not to grow up too fast on us.

The school year probably seems like it takes forever to you. But to your parents (and to us), it seems like you're a baby one day and all grown up the next. If you're moving on to a new school next year, good luck. If not, we'll see you back here in a couple of months. But, either way, please do us a favor this summer: try to enjoy just being a kid. Because before you know it, a grown-up will be staring back at you from the mirror!

Big News: Your child might be in our annual Christmas Show. See the front office for details!
